# iPAAC Joint Action

*The the Joint Action – Innovative Partnership for Action Against Cancer (iPAAC JA) intends to develop innovative approaches to advance in cancer control*

The innovation consists of

- further development of **cancer prevention**
- comprehensive approaches to the **use of genomics** in cancer control
- **cancer information and registries**
- improvements and challenges in **cancer care**
- **mapping** of innovative cancer treatments and
- **governance of integrated cancer control**,  
including a new analysis of National Cancer  
Control Plans.

## Some key data
