

# **Joint Action on 'Innovative Partnership for Action Against Cancer' (IPAAC)**

**Vytenis Andriukaitis**  
European Commissioner for health and  
food safety

**Monday 16 April 2018**

## *2015 was the 30 year anniversary of EU action on cancer*

Thirty years ago in 1985 the heads of state of the countries of the European Community met in Milan and committed themselves to launching the first **«Europe against Cancer»** programme. Since then, actions taken at EU-level have helped to extend and save lives.

**National Cancer Plans**  
adopted by  
**25 out of 28 MS**

**-15%**  
**cancer**  
**incidence**  
**by 2020**

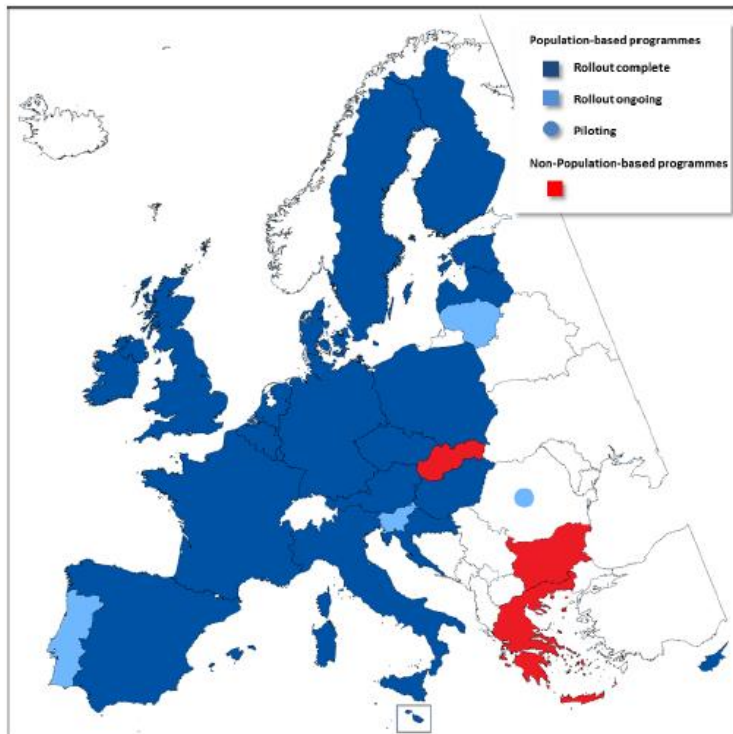

more than  
**500**  
**million**  
screening  
examinations

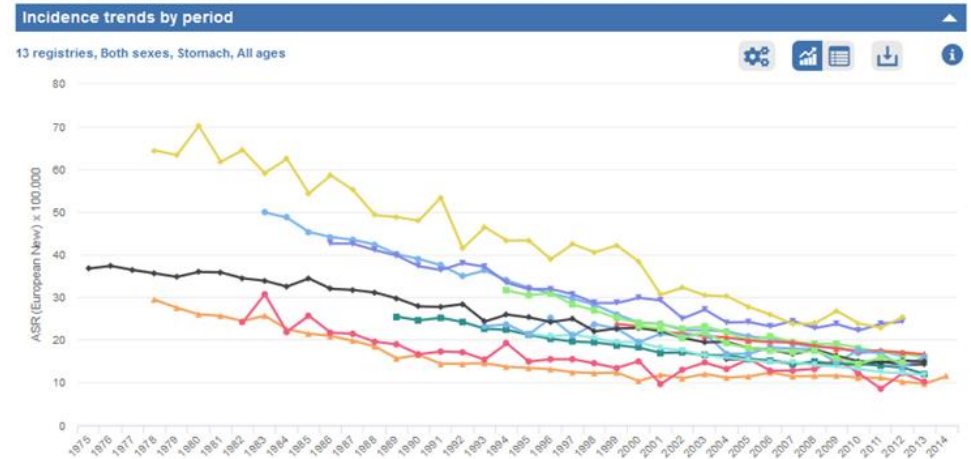

for **breast, cervical and**  
**colorectal** cancer will  
be undertaken in publicly  
mandated programmes in the  
EU **between 2010**  
**and 2020.**

nearly  
**1.5 billion**  
invested in  
**international**  
**collaborative**  
**research**

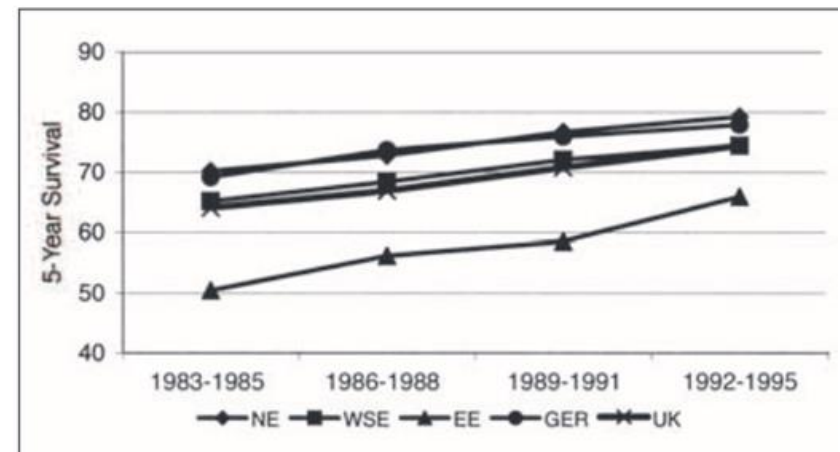

## Breast cancer screening coverage

## Stomach cancer incidence

## Childhood cancers survival

# CANCON HAS ENDED THANK YOU ALL

THE GUIDE IS OUT.

Cancon Guide  
countries at the heart

[Cancon Guide](#) (pdf, 1.5 MT)

## Chapters (all as pdf's):

1. [Introduction](#) (incl. abbreviations and list of contributors),
2. [Context, summary and appraisal](#),
3. [Methods and quality assurance](#),
4. [Cancer screening](#) (Cancon WP 9),
5. [Integrated cancer control](#) (Cancon WP 6),
6. [Community-level cancer care](#) (Cancon WP 7), and
7. [Survivorship and rehabilitation](#) (Cancon WP 8)

## Core chapters as webpages:

1. [Integrated cancer control](#) (Cancon WP 6),
2. [Community-level cancer care](#) (Cancon WP 7),
3. [Survivorship and rehabilitation](#) (Cancon WP 8), and
4. [Cancer screening](#) (Cancon WP 9)

## European Guide on Quality Improvement in Comprehensive Cancer Control

By Monica, Eugenia Kucera and other Cancon authors

This project has  
received funding  
from the European Union

# Linking and coordination with initiatives outside IPAAC

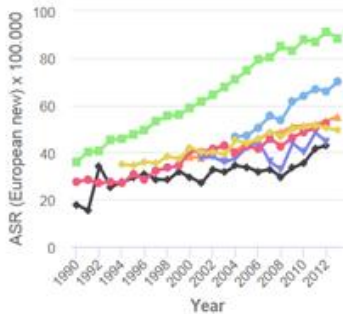

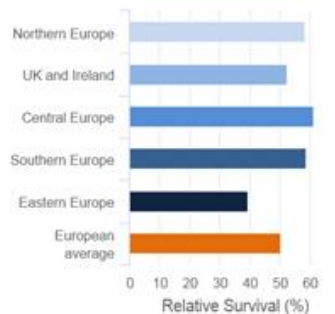

# European Code Against Cancer

12 WAYS TO REDUCE YOUR CANCER RISK

## Implementation of Cancer code

Incidence and mortality historical data

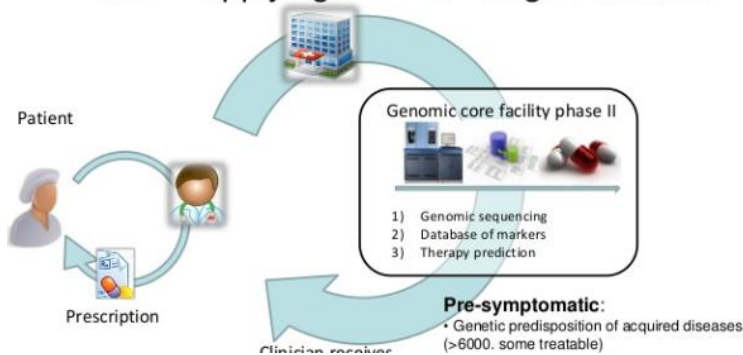

Survival estimates

## Linking registries with clinical records

## Personalized genomic medicine.

Phase II: applying the knowledge database

## Innovative cancer screening and therapies for a full benefit of patients

# Thank you!
