

**iPAAC**  
INNOVATIVE PARTNERSHIP  
FOR ACTION AGAINST CANCER

# WP4

## 2<sup>nd</sup> Governmental Board meeting

---

24th January 2019 , Eurostation, Brussels, Belgium

Régine Kiasuwa Mbengi

Marc van den Bulcke

Laure Bakker

Co-funded by  
the Health Programme  
of the European Union

# AGENDA

---

PART 1 10:00 14:00

*state of play of the WP4 and WP5-10, Q&A*

PART 2 14:00 17:00

*discussion on the Roadmap: content, format and sustainability*

*Diner 19:00 – Aux armes de Bruxelles-*

*Departure at 18:20 from the lobby*

# Tour de table

---

- Do not forget to sign the attendance list
- Please fill the cell « diner » with YES or NO
- WIFI access: WASO-ETCS-GUEST  
User name: WIFIGUEST2019-1  
Password: 1001)\*\*)IOoi

# WP4: objective

---

## Main objective:

The development of the key deliverable:

« **the Roadmap on Implementation and Sustainability of Cancer Control Actions** »

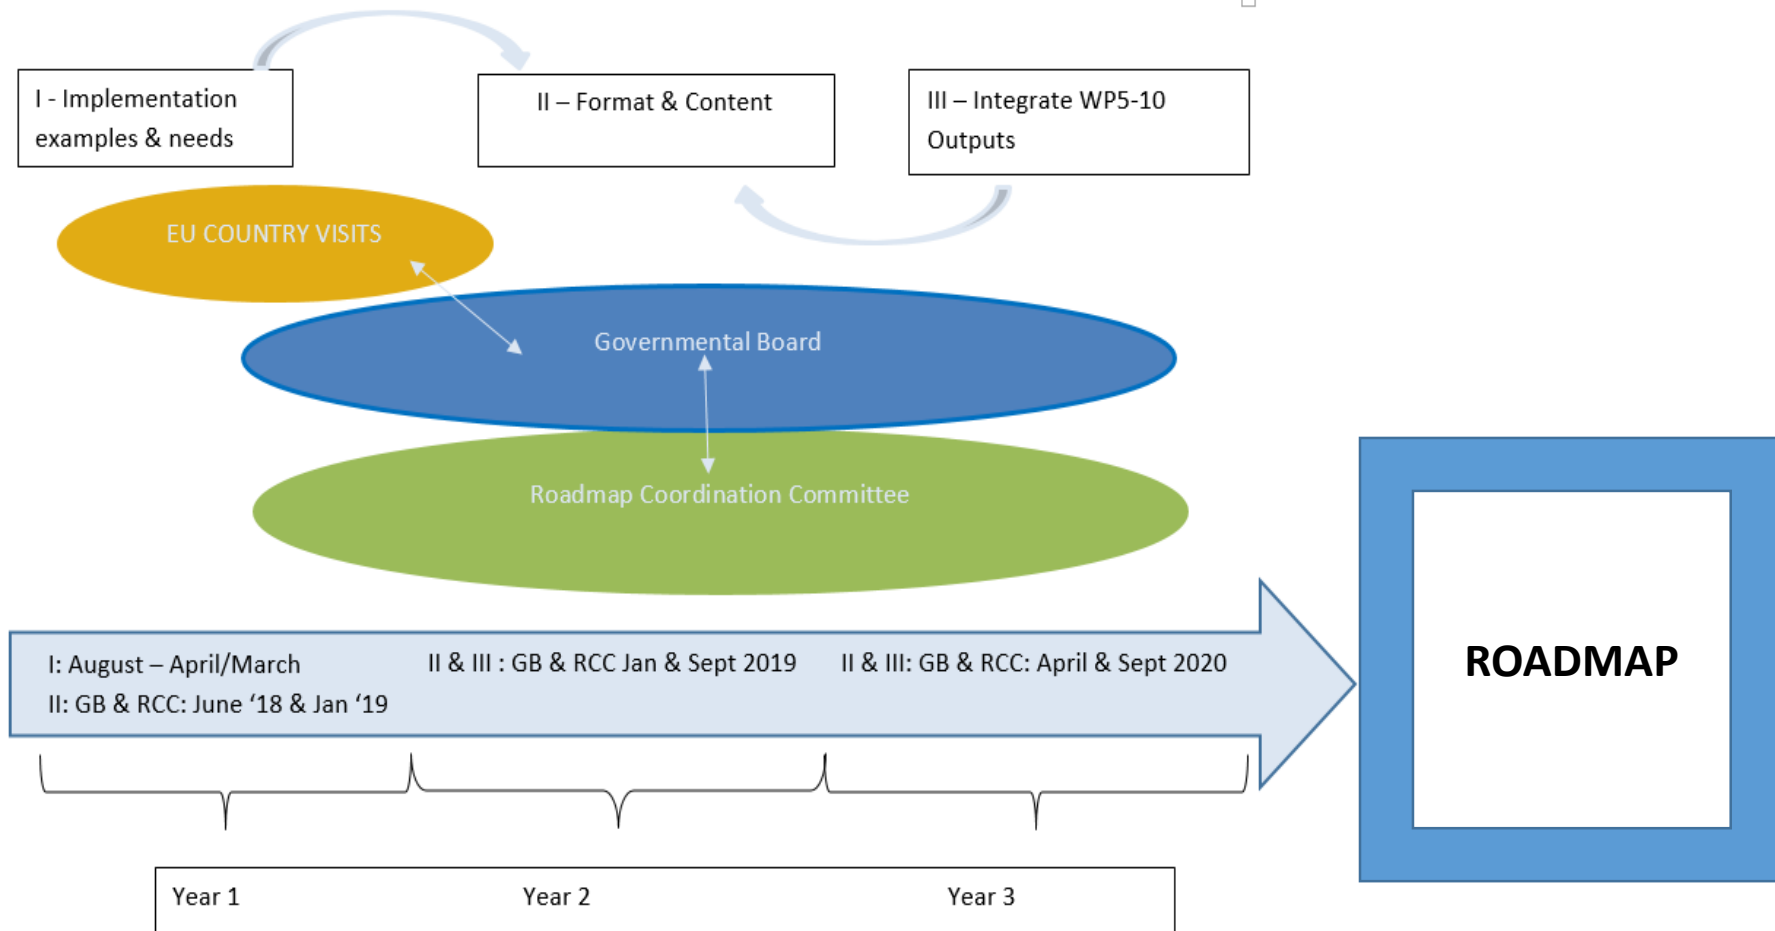

Results from the merge of different exercises and outputs:

- Outputs from iPAAC WP5 – WP10 with a focus on implementation
- Output from EU MS Implementation experience of cancer control actions
- Other JAs: JARC, InFact, EuNetha, JA Health inequalities, ...

## Main tasks of WP4 :

- to map cancer control initiatives implemented in EU Member States and their underlying experience (Task I)
- to develop a framework (format) for the Roadmap and structure the inputs (Task II)
- to integrate iPAAC WP5-10 results about implementation advices/guidance in the Roadmap (Task III)

# WP4: Work process

# Task I: the country visits

---

= EU Member states “visits”: in-depth and qualitative interviews with EU MS policy makers, health administrators & experts

**Objective:** To collect information on:

- the relevant contextual features for cancer control programs implementation
- the experience of cancer control programs implementation into 6 domains
- the expectations regarding the Roadmap (what are the needs related to the implementation of innovations in cancer control) and from the EU

→ Overview of challenges and examples of practical solutions in EU MS

# WP4 : the country visits

---

## What it is not:

- identify/define best practices
- developing guidelines/recommendations
- compare the actions taken in the same field
- no QA / ranking

## What it is:

- > mutual learning (through contact points, e.g. to discuss effectiveness/success of the implementation)
- > provide examples and contact of those who are/have been in charge of the implementation
- > focus on innovation/innovative approach and actions that overcame challenges identified by MS

# WP4 : the country visits

---

## 10 countries already visited:

- France (July 2018)
- The Netherlands (September 2018)
- Spain (October 2018)
- Finland (October 2018)
- Norway (November 2018)
- Croatia (November 2018)
- Slovenia (November 2018)
- Denmark (December 2018)
- Malta (January 2018)

# WP4 : the country visits

---

## **3 countries planned**

- Luxembourg (February 2019)
- Hungary (February 2019)
- Portugal (May 2019)

## **4 countries in planning phase**

- Belgium
- Slovakia
- Austria
- Greece

## **4 countries contacted**

- Czech Republic
- Poland
- Serbia
- Italy

## **to be contacted**

- Moldavia
- Romania
- Bulgaria
- Lithuania
- Estonia
- Latvia
- Ireland
- Cyprus

# WP4 : work process

---

## METHODOLOGY

- Send invitation and find a date
- Prepare 'Country Fiche'
- Send the interview guide (with question for each domain addressed) + find the « right » attendees
- 3-5 hours interview
- Report and summary prepared by the WP4 team and send back to the interviewees for validation
- Extraction of issues addressed (emphasis on: innovative actions, solutions to challenge, ...)
  - = Presentation & discussion of the Country visit report at the 3th Governmental Board
- Have a 'second' interview: discuss the chosen topics in detail with experts

# WP4 Country visits

---

- **Our experience**

- Confirmation of need to organize visits instead of survey (especially for reliable information)
- Willingness to share
- Contextual & detailed information

## **Your experience & expectations ?**

ROADMAP will gather information from 3 sources:

1. from the country visits (+desk research)
2. from the WP 5 → 10 work
3. Other JAs: JARC, InFact, EuNetha, JA Health inequalities, ...

# The Roadmap

---

## Objectives and target groups

- > to support MS in the implementation of cancer control (innovative) measures
- > advisors and administrators (policy-makers), but also advocacy groups
- > providing examples of how have MS implemented cancer control actions

# The Roadmap

---

## Example of actions

We've identified three type of actions :

- > already implemented actions
- > plan for implementation of actions
- > expected actions

# The Roadmap

---

## Content of the Roadmap

*Preliminary list of issues addressed during the visits and which could be included in the Roadmap (selected from the 9 first visits)*

# The Roadmap

---

- Content and format

-> contextual features of visited countries

-> description of the implementation of actions

main added value compared to what could be found when using “classic” search tools (e.g. google)

-> reasons to choose to implement (link to e.g. CanCon/ EPAAC/ECAC) – (underlying reasons)

# The Roadmap

---

ROADMAP will gather information from 3 sources:

1. from the country visits (+desk research)
2. from the WP 5 → 10 work
3. Other JAs: JARC, InFact, EuNetha, JA Health inequalities, ...

# Sustainability

---

- The RM is:
  - an infrastructure that could be improved/extended/filled in
  - repository of descriptions of (practical) examples of cancer control action implementation with their underlying/related rationale (background documentation)
