Innovative Partnership for Action Against Cancer

The Innovative Partnership for Action Against Cancer (iPAAC) Joint Action brings together 24 Associated Partners (with Affiliated Entities, 44 partners) across Europe whose main objectives are to build upon deliverables of the CANCON Joint Action and to implement innovative approaches to cancer control. A Roadmap on Implementation and Sustainability of Cancer Control Actions will be the main deliverable of this Joint Action.

WORK PACKAGE 4 – INTEGRATION IN NATIONAL POLICIES AND SUSTAINABILITY

WP leader: Scientific Institute of Public Health, Belgium (Regine Kiasuwa Mbengi)

This work package covers two key aspects of efficient policy making: implementation and sustainability. Considering that a JA is a relatively short project (3Y), implementation can realistically only be achieved starting from a common ground of understanding on actions to be taken for a particular issue. We propose to take the 'European Guide on quality improvement of cancer control'¹ developed in the former Joint Action CanCon as the basis and develop a so-called Roadmap on implementing the recommendations set out therein. (Alternative title: "Roadmap towards implementing the policy recommendations of the EU Guide on quality improvement in cancer control")

Besides, this new Joint action will address also a number of new issues the field of cancer prevention, governance, genomics, innovative therapies, cancer care and the use of registries. To develop recommendations on new developments and sustainable integration of the latter within the framework of comprehensive cancer control policy, we propose to follow a similar process as applied in the JA CanCon (see chapter 3 of the CanCon Guide).

The overall aim of this work package is delivering the two final documents of the Joint Action: a "Roadbook on implementing the policy recommendations of the EU Guide on quality improvement in cancer control" and a "Guide on innovative actions against cancer: EU perspective"

LOCAL STAKEHOLDER FORUMS

- Mandatory activity of JA associated partners
- Each partner must organise one to two such events throughout the duration of iPAAC JA;
 - small to mid-size events, with around 20-70 people
- Partners are responsible for providing information and coverage of LSFs.
- Inform ipaac@nijz.si and ipaac-pr@uzis.cz about the plans for the conference (dates, aims in English, announcements and programme).

Please provide us with photos, twitter stream, short English description of results and original materials in local languages.
